## EDUCATION

### Oklahoma State University

*Master of Science -Computer Science; GPA: 4.00/4.00*

Stillwater, Oklahoma, USA

JAN 2024 - DEC 2025

### BRAC University

*Bachelor of Science -Computer Science; GPA: 3.36/4.00*

Dhaka, Bangladesh

May 2018 - May 2022

## EXPERIENCE

### Graduate Research Assistant—Department of Computer Science, Oklahoma State University

Supervisor: [Dr. Sharmin Jahan](#), Assistant Professor, *Oklahoma State University*

JAN 2024 - Present

- Set up microservices using Kubernetes and Istio.
- Extracted source IP, request behavior, and other traffic information from microservices using Envoy access logs and distributed tracing with Zipkin in Istio.
- Created a dataset using the extracted traffic requests and developed an ML model to detect suspicious users.
- Implemented adaptive security in distributed systems with Kubernetes and Istio service mesh.

### Junior Software Engineer—Tirzok Private Ltd.

February 2023 - December 2023

Dhaka, Bangladesh

**Project:** *Mortgage Management System.* **Client:** *Kramasoft* **Tasks:** *Automatic Document Validation*

- Implemented classifiers to identify document types, enhancing the system's ability to handle diverse document formats.
- Engineered a specialized document trimmer employing advanced classifiers to intelligently remove irrelevant pages from documents
- Developed robust data extraction processes using AWS Textract for various document types, ensuring the retrieval of crucial field values with precision.
- Built RESTful APIs using Spring Boot and PostgreSQL to facilitate auto validation processes.
- Integrated AmazonMQ (RabbitMQ) for seamless internal communication and Deployed in AWS Lambda using ECR.

**Project:** *Government-Citizen Interaction Portal.* **Client:** *Confidential* **Tasks:** *Citizen Portal, Role Management.*

- Crafted RESTful APIs for the citizen portal using Node.js and MongoDB.
- Architected a robust Role Management System using JWT authentication, Node.js, and MongoDB, ensuring secure and tailored access control.

**Project:** *Payroll and Tax Management System.* **Client:** *Payconz.* **Tasks:** *Multi Currency Conversion.*

- Developed a Flask-based currency conversion API integrated with PostgreSQL, facilitating real-time multi-currency payroll processing.
- Implemented APIs to generate comprehensive currency history reports for preceding months.

### Undergraduate Research Assistant—BRAC University

Lab: *Computing for Sustainability and Social Good (C2SG) Lab*

Remote

October 2020 - January 2023

Supervisor: [Jannatun Noor](#), Assistant Professor, *Brac University*.

Consultant: [Prof. Dr. A. B. M. Alim Al Islam](#), Professor, *Bangladesh University of Engineering and Technology*.

- Supported research efforts and provided guidance to thesis students.
- Developed a novel framework for HCI4D researchers to approach HVECs in [Andharmanik](#) and [Ruma](#), executing Linear Regression with SPSS to understand participants' needs.
- Performed descriptive analysis to identify barriers in indigenous education in Bandarban District, created multiple prototypes, and finalized Indigenous Primary Education (IPE) content in three local indigenous languages.
- Decreased user waiting time for progressive JPEG by 54% and image size by 27% without compromising image quality; tested image qualities using SSIM and analyzed results from custom and [COCO Dataset](#).
- Emulated a blockchain network with 50 Nginx VM servers and used proxy servers to detect and mitigate 66.7% of DDoS attacks using memory management of the VMs.

## TECHNICAL SKILLS

---

**Languages:** Java, Python, JavaScript, SQL.

**Python Libraries:** Scikit-learn, Fitz, OpenCV, Pandas, Matplotlib, Tkinter, Seaborn, Numpy.

**AWS Tools:** Textract, Lambda, ECR, Opensearch, AmazonMQ, Secret Manager, S3, HTTP APIs.

**Backend Frameworks:** Node.js, Django, SpringBoot, Flask

**Developer Tools:** Git, Heroku, VS Code, Pycharm, HTML/CSS, Bootstrap

**Machine Learning Platforms/Frameworks:** TensorFlow, PyTorch.

**Technical Writing Tool:** LaTeX

**Operating Systems::** Linux (Ubuntu, Kali, CentOS, and Debian)

**Cloud and DevOps Tools:** Kubernetes, Docker, Istio

**Virtualization tools:** VMware, KVM, VirtualBox.

## PROJECTS

---

### Tackling Sexual Harassment on Public Transport with Deep Neural Network | *Pytorch*

[\[Link\]](#)

- Used kaggle dataset "[Car License Plate Detection](#)" for training and testing.

### Devising Faster Video Streaming Architecture with Low Bandwidth Video Compression Techniques |

[\[Link\]](#)

- This project is a part of the [Research Proposal](#). Compared different codecs for live video streaming.
- Used FFmpeg's libx264 for H.264, libx265 for H.265, and libvpx-vp9 for VP9. To compare qualities, used SSIM, PSNR, and VMAF. Tuned the settings in real-time functionality to imitate live video streaming.

### BRACU-ResearcherHub | *Django, Bootstrap, PostgreSQL*[\[Link\]](#)

- Social media for BRAC University researchers to find collaborators. Researchers can create separate research labs within specific research areas. If other researchers find the lab interesting; they can join and comment on the lab. An efficient way to find the next research collaborator.
- Used Django for backend and HTML, CSS and, Bootstrap for frontend.

### Imago | *Tkinter, Opencv*

[\[Link\]](#)

- Beautify your pictures by using filters, cropping, rotating, and lots of other features.
- Used Opencv to transform images and Tkinter to create the Graphical User Interface.

## PUBLICATIONS

---

## RESEARCH ACHIEVEMENTS

---

- Presented “Mitigating DDoS Attacks Using a Resource Sharing Network” in **9th International Conference on Networking, Systems and Security (9th NSysS 2022)**, on 20th December, 2022.
- Presented poster “Orchestrating Image Retrieval and Storage over A Cloud System” **8th International Conference on Networking, Systems and Security, December 21-23, 2021 (8th NSysS 2021)**
- Invited to attend **2022 ACM International Joint Conference on Pervasive and Ubiquitous Computing (Ubicomp’22)**, September 11—15, Atlanta, USA and Cambridge, UK.
- Received partial funds from “**Bangladesh University of Engineering and Technology**” to conduct fieldwork in Andharmanik.
- Received **US National Science Foundation under Grant 2014547** to pay additional page charges for publishing “Orchestrating Image Retrieval and Storage over A Cloud System” in *IEEE Transactions on Cloud Computing*.
- Invited to present our work in **ICCCN 2021 Workshops** by **The 30th International Conference on Computer Communications and Networks (ICCCN 2021)**, July 19 - 22, 2021, Athens, Greece.

## EXTRACURRICULAR

---

- **Acting:** I have worked in several Bangladeshi *TVC*, *OVC*. Recently, I acted in a *TV series* for an *OTT* platform called *Hoichoi*. One of my biggest projects is a *TVC for Airtel* (most popular telecommunications company in Bangladesh).
- **Singing:** Performed live shows as a vocal artist in university programs, wedding ceremonies, club programs, promoting facebook pages, also for local audiences
- **Clubbing:** Served BRAC University Cultural Club as Assistant Secretary from Spring 2019 to Spring 2020.
- **Cricketer:** A pace bowling allrounder. Played in *RS (Residential Semester) Cricket Tournament*.
